

# Careers in Weather Forecasting

Click on the [link](#) to explore careers in weather forecasting.

Pick one of the careers and then answer the following questions in your own words.

1. Which career did you choose?

Read through the information about the career at the top.

2. What do people in that career do?
3. What was something new that you learned?
4. What type of education would you need to get a job in that career?

Now click on one of the people listed below the information and read through their interview.

5. In one sentence, describe what they do for the NWS.
6. What do they like most about working for the NWS and their job?

If you wish, look through more interviews with people that have that same career.

7. Would you want a career in this field? Why or why not?

Congratulations on finishing this exploration into the careers of weather forecasting! Make sure to turn in this assignment in Google Classroom and if you have extra time, check out [this](#) intro video from the NWS. You can also read about meteorologists on page 37 in your textbook.
